

IN-GROUND INSTALLATION - Model ATI-TC-6-FT

The Traffic Controller is a heavy duty in-ground "Directional Enforcer". It allows traffic in one direction only. It can be used as a free entrance or exit to your parking facility. It can also be used to enforce one-way traffic in such drive-through areas as hotels, banks, commuter stations, etc. The Model ATI-TC-6-FT is 72" wide and includes twenty (20) cut-steel blade teeth.

SURFACE MOUNT INSTALLATION - Model ATI-TC-6-FT
