

Benefits:

- **Advanced technology accuracy even with dirty, cut, scarred, aged, wet, and dry fingerprints**
- **Self contained unit stores 100 templates**
- **Flexible communication options including RS232, RS485 and Wiegand**
- **One touch enrollment, and One touch Verification**
- **Convenient VeriAdmin software package provides user-friendly fingerprint template enrollment and administration capabilities**
- **Intuitive user interface with red, green and amber LED signals**
- **Built-in Compatibility with most industry standard Wiegand formats, call for latest options**
- **Fingerprint Identification for access control installations in a self contained reader**
- **VeriAdmin software for initial set-up, administration and networking functions**

VERY-PASS-1

Very-Pass-1 Specifications:

Veri-Pass-1 Dimensions	Length : 130 mm (5.12") Width : 50 mm (1.97") Depth : 56 mm (2.20')
Enrollment Time	<3 second
Identification Time	<1 second
Equal Error Rate (EER)	0.1%
Number of Templates	100 per unit
Supply Current	Sleep: .150 amps @12V Identify/Verify: .300 amps @12V
Voltage	5 volts regulated, 6 to 24 volts unregulated

Mounting Specifications:

Flat Surface, Single Gang or Mullion Mountable Holes in wall mount plate will accept #6 screws or bolts. Clearance hole diameter is .155”.

Cutting-edge security and convenience:

The Very-Pass-1 is the ultimate biometric reader for physical access control installations. The modern reader eliminates the need for pins, keys or cards to gain access to secure areas. To gain access, the user simply places their finger on the reader and in less than one second the Very-Pass-1 confirms or denies access based on a database of fingerprints from authorized users.
